## Area Of Refuge/Rescue Illuminated Signage

\* Every model is also offered in a battery powered version

### Product Specifications:

All of our Area of Refuge signs are offered in self or battery powered models. With solid single piece aluminum construction and LED technology they are the most reliable and Eco friendly.

HDI-ARA-F1 & F1B\*

HDI-ARA-F4 & F4B\*

The HDI-ARA-F1 & F4 series heavy duty Area of Refuge/Rescue sign is designed to stand up to high abuse areas such as correctional facilities, schools, apartment complexes, and public areas that may be subject to vandalism. The heavy gauge cast aluminum housing and high abuse polycarbonate faceplate offers extreme protection and superior performance with a contemporary look. Tamper resistant screws insure the integrity of the unit. Perforated chevrons allow for on-site selection. The HDI-ARA-F1 & F4 come standard with a high reflective white powder coat inside the housing to maximize the LED distribution. The HDI-ARA-F1 & F4 are also available with high output LED's in AC only and self-powered operations. All sign come with an official wheelchair symbol as a part of the design.

The HDI-ARA-C1 & C4 edge-lit Area of Refuge/Rescue signs features a clean, cylindrical design. When paired with die-cast canopy, the HDI-ARA-C1 & C4 provide a fresh approach to the traditional exit sign. The "quick slide" canopy allows in-field adjustment from wall mount to ceiling mount. Utilizing direct, high-output, high efficiency LED's, the HDI-ARA-C1 & C4 illuminate with a crisp and even light distribution. The HDI-ARA-C1 & C4 can be wall, ceiling or end mounted. Wall and ceiling are field adjustable, end mount configuration must be specified. The HDI-ARA-C1 & C4 are available in AC only and Self-powered variations. Field adjustable chevrons are standard. All sign come with an official wheelchair symbol as a part of the design.

HDI-ARA-C1 & C1B\*

HDI-ARA-C4 & C4B\*

HDI-ARA-O3 & O3B\*

HDI-ARA-O1 & O1B\*

The HDI-ARA-O1 & O3 series has been developed with style, ease of installation and dependability in mind. Utilizing high-output indirect LED technology, the HDI-ARA-O1 & O3 provides a recessed or surface mounted edge-lit Area of Refuge/Rescue sign with excellent light distribution. The HDI-ARA-O1 & O3 series can be wall / ceiling recessed or surface mounted. End mount configurations are also available. The HDI-ARA-O1 & O3 series can be configured for AC only and Self-Powered operation versions. The HDI-ARA-O1 & O3 series features universal field adjustable chevrons. All sign come with an official wheelchair symbol as a part of the design.

The HDI-ARA-AT1 & AT4 series of commercial extruded aluminum Area of Refuge/Rescue sign signs feature an attractive and slim housing design. Ideal for commercial and institutional installations, the slim profile of this extruded fixture blends perfectly with current interior decors. The AT series is available configured with high-output LED's in AC only and Self-Powered operation versions. All sign come with an official wheelchair symbol as a part of the design.
