ARS - 1200

HDI-ARS-1200 Area of Refuge Communication System

The ARS-1200 is a RS-485, IP-addressable hands-free Area of Refuge System with dual audio and visual alarms and built-in supervision capabilities designed to comply with the ADA, IBC, ICC & NFPA Life Safety 101 Codes. The ARS-1200 is fully expandable and may be used as an independent system or as a complete networked system with the addition of the HDIARS-F&C Software.

STANDARD FEATURES:

- Vandal Proof 16 gauge Stainless Steel 304 #4 Construction
- RS-485 & IP Ethernet Communication
- Data Encryption
- Complete System Supervision
- Two-way offsite Communication to a Central Station
- Master Station Touch Screen Display
- Large 3" "PUSH FOR HELP" Button
- Dual Audio & Visual Alarms for the Hearing and Visual Impaired
- Engraved Area & Master Station (no silk screen)
- Modular Design provides for any number of Areas Stations & Master Stations
- 24 Vdc 2.5 amp UL Listed Battery Back-up

ADA - 100

HDI-ADA-100 Area of Refuge System

The ADA 100 is a modular, hands-free Area of Rescue/ Refuge System with dual audio and visual alarms and built-in supervision capabilities designed to comply with the Americans with Disabilities Act, IBC Code & NFPA life safety 101. It is fully expandable and may be used as an independent system (with its own battery backup system) or in conjunction with other battery back-up systems.

STANDARD FEATURES:

- Vandal Proof 304 #4 16 ga. Stainless Steel Construction
- Area Station Supervision Circuits
- Large 3" "PUSH FOR HELP" Button
- Dual Audio & Visual Alarms for the Hearing and Visual Impaired
- Directory for area station locations
- Keyed Master Station Reset Switch
- Modular Design provides for any number of Areas Stations
- No Telephone Lines Needed

ADA - 121

HDI-ADA 121® Audio Visual Alert System

The popular ADA 121® Audio/Visual Alert System is our own modular add-on device for intercom systems and building doorbells enabling building residents with visual and/or hearing impairments to always be aware of visitors ringing their residence's doorbells. Resident awareness is stimulated via up to 6 distinct tones for the door and telephone & an ultra-bright flashing strobe light.

STANDARD FEATURES:

- Vandalproof, 16-gauge stainless steel construction
- Audio and visual alarms for the hearing and visually impaired
- Adjustable timer (alarm)
- Push button rest switch
- On/Off switch and SuperBrite® LED power indicator
- Flashing strobe light
- High volume (90dbA) piezoelectric alarm
- 16 Volts AC wall-mounted, plug-in transformer or 16 Volts hardwired transformer
- 3-GANG mounted
- Remote units available for multiple location installations
- Custom designed systems available
- Tamper-proof mounting hardware

ARCU & ADA 1000

ARCU-10 Area of Refuge Command Unit

The ADA ARCU-10 and ARCU-5 Area of Refuge Command Units provide hands-free audio and visual alarms to users, Emergency Personnel, Offsite Communications & complies with the Americans with Disabilities Act. Installation is easily accomplished with connections to a telephone line, AC power & the ADA-1000.

- Vandalproof 16-gauge stainless steel construction with engraved lettering
- Visual alarm for the hearing impaired
- Four wire system (two-wire telephone line and two wire 16 volt AC power line)
- Automatic dialer with programmable 31 digit dialer memory
- Two phone number dial out capability
- Hands-free speaker phone
- Large 3" round stainless steel engraved PUSH FOR HELP Button
- Automatic or manual shut off by called party (depends on phone service)
- Field and remote programmable with error indicator
- Recordable station location identifier message (up to 18 seconds)
- Programmable shut off time (1 to 999 minutes)
- Battery backup with five year battery life

Housing Devices, Inc. (HDI)

HDI is a family owned and operated business established in 1978 to serve the entry and emergency communications needs of educational, municipalities, commercial and multi-unit buildings. Since introducing our first vandal proof 16-gauge stainless steel building intercom system, HDI has expanded its range of products & services to help our customers meet the NFPA Life Safety 101, IBC, ICC codes & the Americans with Disabilities Act (ADA).

HDI's lines of Crisis Communication Systems®, Area of Refuge Systems, Audio Visual Alert Devices, Telephone & Video Entry Systems & Advanced RFID & Biometric Access Control Systems are manufactured, designed & distributed at our facility in Boston, MA. Proudly Made in the USA.

We continue our mission to be the company of choice for architects, engineers & developers specifying or purchasing innovative cost effective products in the intercom, emergency communications and access control products marketplace.
